Howard-7/30/72 These have been hectic days, more so since our conference with the lawyer on our damage suit against the government, for which I must also find considerable time. With this dominating my mind, I fear much of what I have written lately may be unclear and that I may have omitted parts of what I had in mind, the kind of thing that is not uncommon when concentration is interfered with. Lesar finally completed listening to and I finished dubbing the clngthy interviews I conducted in early May. It took until late Friday afternoon. So, to get to where I might work with fewer distractions and to reduce the chances of losses through forgetting, etc., I have gone over the visible tapes to identify and put them away. In the course of this I find several I'm sure I asked you about and you have not responded. These were made for me by a friend. If you did not get the descriptions, I asked you if you'd like to borrow these or like to keep them,in the latter event to please replace the tapes. I put them in a separate place to be able to find them quickly. They are tapes of Pacifica broadcasts, Banning Garrett, Asia Info. Group, Berkeley, I hr., after coming back from NVN; Bay Area Institute, Franz Schurman and Marty Gehlen, destruction in VN; 25 minutes;and a 120 cassette of Schurman comparing VN situation with China 48-9 one side and inside report on what is going on in Brazil, police, economic control coutry US money, etc. I have no further use for these, would reuse the tapes if you don't want and would eliminate this tiny bit of clutter. Please, how about letting me know? HW
